

Bernard Barani

Bernard Barani is Deputy Head of Unit in DG CONNECT of the European Commission, which he joined in 1994. He is responsible for R&I in the field of communication in support of EU industry. This includes strategy and work programme definition with European stakeholders, implementation, test and validation pilots, standardisation and promotion. He has had a leading role for the launch of the 5G PPP and is currently leading the set up of the 6G Smart Network and Services partnership with industry, which will be the European 6G flagship connectivity initiative in for the coming years.

Prior to joining the Commission, he worked in industry and in ESA on advanced satcom programmes. He is graduated from the “Ecole National Supérieure des Télécommunications de Bretagne”, is vice chair of the Steering Committee of the EUCNC conference and is WWRF fellow.
