

Dr. Volker Jungnickel

Volker Jungnickel received PhD and habilitation degrees in Physics and Communications Engineering in 1995 and 2015, respectively. He joined Fraunhofer HHI in 1997, working on optical wireless communications, multiple antennas in mobile networks and fixed optical access networks. Volker teaches and supervises thesis at TU Berlin, where he was also appointed as extraordinary professor in 2021. Volker serves in optical wireless standards as chair of IEEE P802.15.13 and as technical editor of IEEE P802.11bb.
